Good evening,

Today, President Trump held a press briefing and provided an update on COVID-19 testing, vaccines, and cases. Thanks to President Trump’s efforts and the tireless work of the medical heroes on the frontlines, state and local leaders, and public health professionals, we are seeing progress in fight against the virus.

- Since the nationwide peak on July 24th, we have seen a 38% decline in the 7-day average of new cases.
- Coronavirus hospitalizations have declined to 9% of inpatient admissions, down from its peak of 24% of admissions.
- So far, more than 10,000 testing instruments and nearly 3 million tests have been shipped to nursing homes, with more on the way this week.
- The United States has conducted more than 84 million tests.
- Patients continue to see declining testing turnaround times. Over the last week, 90% of tests were completed within 3 days and 95% were completed within 5 days.
- President Trump has rapidly built the world’s leading testing system – with daily testing increasing by 32,000% since March 12th.
- Operation Warp Speed is working to achieve 300 million doses of safe and effective vaccines, with initial doses available by the first of next year.
- The United States is leading the way on innovative therapeutics – with 270 clinical trials underway for potential coronavirus drugs.
- Last week, the Administration announced an Emergency Use Authorization for convalescent plasma therapies.
New COVID-19 cases in the United States have declined by 38% over the last month.

President @realDonaldTrump just announced that AstraZeneca's vaccine has reached Phase 3 clinical trials!

Click [here](https://www.the.whitehouse.gov) to watch
With six vaccine candidates under review, Operation Warp Speed is on track—or better—to meet its ultimate objective: safe and effective vaccines approved by the end of the year.

News of the day: 45.wh.gov/qPpLTE

Additionally, Vice President Pence led a briefing with governors and the White House Coronavirus Task Force to discuss local, State, and Federal Coronavirus response and recovery best practices.

On today’s bipartisan call with America’s Governors, the @WhiteHouse Coronavirus Task Force answered questions from across the country to ensure that ALL states have the resources and support they need.

Assistance for Small Businesses
Paycheck Protection Program (PPP): The Paycheck Protection Program established by the CARES Act, is implemented by the Small Business Administration with support from the Department of the Treasury. The Paycheck Protection Program is providing small businesses with the resources they need to maintain their payroll, hire back employees who may have been laid off, and cover applicable overhead. On June 6, 2020, President Trump signed legislation providing more flexibility and relief for small businesses, including extending the covered period for loan forgiveness from 8 weeks after the date of loan disbursement to 24 weeks and lowering the requirements that 75% of a borrower’s loan proceeds must be used for payroll costs to 60%. More information can be found below:

- Paycheck Protection Program Loan Information
- Loan Details and Forgiveness
- Who Can Apply
- Lender Forms and Guidance
- Summary of Cumulative Paycheck Protection Program Data (Updated 8/21)
- Interim Final Rule - Treatment of Owners and Forgiveness of Certain Nonpayroll Costs (Released 8/24)
- Other Assistance
- Frequently Asked Questions
- Frequently Asked Questions For Loan Forgiveness
- Summary of PPP lending as of 8/8/20

Current law dictates that the Paycheck Protection Program (PPP) close at the end of August 8, 2020. As such, SBA is no longer accepting PPP applications from participating lenders.

Economic Injury Disaster Loans & Advance Program: In response to the Coronavirus (COVID-19) pandemic, small business owners and non-profit organizations in all U.S. states, Washington D.C., and territories are able to apply for an Economic Injury Disaster Loan (EIDL). EIDL is designed to provide economic relief to businesses that are currently experiencing a temporary loss of revenue. EIDL proceeds can be used to cover a wide array of working capital and normal operating expenses, such as continuation to health care benefits, rent, utilities, and fixed debt payments.

- Frequently Asked Questions for Faith-Based Organizations Participating in the Paycheck Protection Program and the Economic Injury Disaster Loan Program
- Apply for a COVID-19 Economic Injury Disaster Loan and loan advance

SBA Express Bridge Loans: Express Bridge Loan Pilot Program allows small businesses who currently have a business relationship with an SBA Express Lender to access up to $25,000 quickly. These loans can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing and can be a term loans or used to bridge the gap while applying for a direct SBA Economic Injury Disaster loan. If a small business has an urgent need for cash while waiting for decision and disbursement on an Economic Injury Disaster Loan, they may qualify for an SBA Express Disaster Bridge Loan.

SBA Debt Relief: As part of our coronavirus debt relief efforts, the SBA will pay 6 months of principal, interest, and any associated fees that borrowers owe for all current 7(a), 504, and Microloans in regular
servicing status as well as new 7(a), 504, and Microloans disbursed prior to September 27, 2020. This relief is not available for Paycheck Protection Program loans or Economic Injury Disaster loans. More information can be found below:

**Assistance for American Workers and Families**

**American Workforce Policy Advisory Board – Call to Action:** The American Workforce Policy Advisory Board has released a call-to-action to help the millions of workers who need assistance now, and build the resilient and agile workforce of the future powered by skilled American workers. Specific actions:

- Expedite American workers’ return to employment and upward mobility by investing in career pathways and implementing skills-based hiring practices.
- Remove obstacles to the modernization of American education and training to accelerate reskilling and facilitate innovation in workforce development.
- Build the technological infrastructure necessary for the future of work.

**Find Something New:** [FindSomethingNew.org](http://FindSomethingNew.org) can help workers of all ages and backgrounds identify the right path for their career goals by recommending multiple educational pathways, providing aptitude testing, offering a directory of critical resources for child care, food assistance, internet access and more. Educational pathways featured include online learning, professional certification programs, associate’s degrees, and vocational, technical and trades education.

**Economic Impact Payments:** The CARES Act provides for Economic Impact Payments to American households of up to $1,200 per adult for individuals whose income was less than $99,000 (or $198,000 for joint filers) and $500 per child under 17 years old – or up to $3,400 for a family of four. More information can be found [here](http://here).

**Preserving Jobs for American Industry:** The CARES Act offers meaningful financial support to American businesses and job creators so they can better support employees and be prepared to get back to business as soon as possible. More information can be found [here](http://here).

**Supporting Child Care:** The CARES Act provided an additional $3.5 billion to the Child Care and Development Block Grant to support families with child care options during this public health crisis. Additional information and State-level information can be found [here](http://here).

**Dislocated Worker Grants:** The U.S. Department of Labor is providing Dislocated Worker Grants to prevent, prepare for and respond to COVID-19. State-by-State data and additional details can be found [here](http://here).
**Assistance for Communities**

**CARES Act Recovery Assistance Grants:** The U.S. Department of Commerce’s Economic Development Administration (EDA) is awarding CARES Act Recovery Assistance Grants to assist communities in responding to the coronavirus pandemic. These grants are being administered under the authority of the bureau’s flexible [Economic Adjustment Assistance](https://www.eda.gov) (EAA) program, which provides a wide-range of financial assistance to eligible communities and regions as they respond to and recover from the impacts of the coronavirus pandemic. For complete information, please visit the recently updated [EDA CARES Act Recovery Assistance page](https://www.eda.gov/careens/).  

**Opportunity Zones:** Opportunity Zones were created under the [2017 Tax Cuts and Jobs Act](https://www.congress.gov/bill/115th-congress/house-bill/747), signed into law by President Donald J. Trump on December 22, 2017, to stimulate economic development and job creation, by incentivizing long-term investments in low-income neighborhoods. During the COVID-19 pandemic, President Trump directed the [White House Opportunity and Revitalization Council](https://www.whitehouse.gov) to focus on underserved communities impacted by the virus. For more information, visit [opportunityzones.gov](https://www.opportunityzones.gov).

**How to Help**

![](https://coronavirus.gov/donateplasma.png)

**Donate COVID-19 Plasma**

- If you have fully recovered from COVID-19, you may be able to help patients currently fighting the infection by donating your plasma. Because you fought the infection, your plasma now contains COVID-19 antibodies. These antibodies provided one way for your immune system to fight the virus when you were sick, so your plasma may be able to be used to help others fight off the disease. Learn more [here](https://www.cdc.gov/covidplasma/).  
- To find where you can donate source plasma, visit [donatingplasma.org](https://www.donatingplasma.org).

**Donate Blood**

- The COVID-19 pandemic has caused unprecedented challenges to the U.S. blood supply. Donor centers have experienced a dramatic reduction in donations due to the implementation of social distancing and the cancellation of blood drives. Blood is needed every day to provide lifesaving treatments to a variety of patients. You can help ensure that blood continues to be available for patients by finding a blood donor center near you to schedule your donation. Learn more [here](https://www.cdc.gov/blood)  
- To find where you can donate blood, visit [aabb.org](https://www.aabb.org).

**Donate Supplies and Equipment**
• If you represent a business that **would like to donate medical supplies, equipment** or pharmaceuticals, please [provide details](#) on what you would like to give. This form is for donations only.

**Sell Supplies and Equipment**

• If you are interested in doing business with FEMA with your company’s **non-medical goods and/or services**, submit your inquiry to the Department of Homeland Security (DHS) Procurement Action Innovative Response Team (PAIR) team at [DHSIndustryLiaison@hq.dhs.gov](mailto:DHSIndustryLiaison@hq.dhs.gov).

• The federal government is purchasing medical supplies or equipment under the Defense Logistics Agency (DLA) [Request for information (RFI)](#). Visit the DLA website [for more information](#).

**Developing Medical Countermeasures**

• If you would like to meet with a federal agency regarding a **vaccine, diagnostic, therapeutic or other medical device** that you are developing for SARS-CoV-2 or COVID-19, please go to [medicalcountermeasures.gov](http://medicalcountermeasures.gov).

**Other Forms of Help**

• If you or someone you know represent a hospital or healthcare provider in need of medical supplies, please contact your state, local, tribal or territory department of public health and/or emergency management agency.

• If you represent a private sector business and wish to learn more about getting involved in a way that is not listed here, please e-mail [nbec@max.gov](mailto:nbec@max.gov) or visit our [National Business Emergency Operations Center](#) page.

For additional information, please visit FEMA’s website: [www.fema.gov/coronavirus/how-to-help](http://www.fema.gov/coronavirus/how-to-help).

**Guidelines for Opening Up America Again**

President Trump has unveiled [Guidelines for Opening Up America Again](#), a three-phased approach based on the advice of public health experts. These steps will help state and local officials when reopening their economies, getting people back to work, and continuing to protect American lives.

Operation Warp Speed
• The President is using all available means to ensure safe vaccines, therapeutics, and diagnostics are developed, manufactured, and distributed in unprecedented time and scale in response to COVID-19.
• Earlier this year, President Trump launched Operation Warp Speed, a groundbreaking partnership between the Federal Government, scientific community, and private sector to develop and deliver vaccines in record time.
  o Operation Warp Speed’s goal is to produce and deliver 300 million doses of safe and effective vaccines with the initial doses available by January 2021.
• The Administration has made large investments in multiple vaccine candidates to provide financial infrastructure for mass manufacturing, in parallel with late-stage clinical trials.
• Operation Warp Speed has invested in more than five vaccines and teamed up with multiple pharmaceutical companies to safely produce as many effective vaccines as possible.
• A number of vaccine candidates have shown promising early clinical results and are either in or starting Phase 3 clinical trials, including AstraZeneca, Moderna, and Pfizer.

Phase 3 Clinical Testing in the US of AstraZeneca COVID-19 Vaccine Candidate Begins (HERE)
• A multi-site, Phase 3 clinical trial evaluating an investigational COVID-19 vaccine known as AZD1222 has begun. The trial will enroll approximately 30,000 adult volunteers at 80 sites in the United States to evaluate if the candidate vaccine can prevent symptomatic coronavirus disease 2019 (COVID-19).
FDA Coronavirus (COVID-19) Update Daily Roundup – August 31, 2020 (HERE)

- The U.S. Food and Drug Administration continues to announce actions taken in its ongoing response effort to the COVID-19 pandemic.

FDA Approves First-of-its-Kind Automated Insulin Delivery and Monitoring System for Use in Young Pediatric Patients (HERE)

- Today, the U.S. Food and Drug Administration approved the MiniMed 770G System, a hybrid closed loop diabetes management device that is intended to automatically monitor glucose (sugar) and provide appropriate basal insulin doses with little or no input from the users or their caregivers for use by individuals aged 2 to 6 with type 1 diabetes.

Proposed Medicare Coverage of Innovative Technology (HERE)

- The MCIT proposal would provide national Medicare coverage on the same day as Food and Drug Administration (FDA) market authorization for breakthrough devices and coverage would last for 4 years. This new coverage pathway would offer beneficiaries nation-wide predictable access to new, breakthrough devices to help improve their health outcomes.

CMS Acts to Spur Innovation for America’s Seniors (HERE)

- Today, under President Trump’s leadership, the Centers for Medicare & Medicaid Services (CMS) issued a proposed rule that unleashes innovative technology so Medicare beneficiaries have access to the latest, most cutting-edge devices. Today’s action represents a step forward that will help demolish the existing bureaucratic barriers that have created a “valley of death” for innovative products, resulting in lag times and lack of access for America’s seniors.

HUD Provides $100 Million in CARES Act Funding to Native American Tribes to Support Coronavirus Recovery Efforts (HERE)

- Today, the U.S. Department of Housing and Urban Development (HUD) Secretary Ben Carson announced that HUD has awarded a total of $100 million to Tribes across the Nation as part of HUD’s Indian Community Development Block Grant Imminent Threat program (ICDBG-CARES). This funding helps address problems that pose an imminent threat to public health or safety of Tribal residents and will be used to help Tribes prevent, prepare for, and respond to COVID-19.

HUD Secretary Ben Carson Hosts Affordable Housing Roundtable and Visits Habitat for Humanity in North Carolina (HERE)

- U.S. Housing and Urban Development Secretary Ben Carson hosted a roundtable in an Opportunity Zone alongside U.S. Representative Richard Hudson (R-NC 8) with several leaders in the North Carolina housing market to discuss innovative solutions to increasing the Nation’s supply of affordable housing.

Thursday, September 3 IRS Webinar Focuses on Opportunity Zones (HERE)

- The Internal Revenue Service is holding a free webinar designed to give an overview of Opportunity Zones and to discuss related tax benefits for investors. Opportunity Zones are an economic development tool that allows people to invest in distressed areas in the United States.

Settlements Begin in Syndicated Conservation Easement Transaction Initiative (HERE)

- As part of a continuing effort to combat abusive transactions, the Internal Revenue Service announced today the completion of the first settlement under its initiative to resolve certain docketed cases involving syndicated conservation easement transactions.
Trump Administration Invests $9 Million in High-Speed Broadband in Rural Virginia (HERE)
- The Trump Administration today announced that the United States Department of Agriculture (USDA) is investing $9 million to provide broadband service in unserved and underserved rural areas in Virginia.

USDA Extends Free Meals for Kids through December 31, 2020 (HERE)
- Today, U.S. Secretary of Agriculture Sonny Perdue announced the U.S. Department of Agriculture (USDA) will extend several flexibilities through as late as December 31, 2020. The flexibilities allow summer meal program operators to continue serving free meals to all children into the fall months. This unprecedented move will help ensure – no matter what the situation is on-the-ground – children have access to nutritious food as the country recovers from the COVID-19 pandemic.

USDA Implements the OneRD Guarantee Loan Initiative; Encourages Private Investment in Rural Communities (HERE)
- United States Department of Agriculture (USDA) Deputy Under Secretary for Rural Development Bette Brand today announced that USDA is implementing the OneRD Guarantee Loan Initiative, releasing new information on rates and terms that will help lenders apply for loan guarantees to support rural businesses, infrastructure and community facilities and increase private investments in rural America.

ICYMI: U.S. Department of Labor Acts to Help American Workers and Employers During the Coronavirus Pandemic (HERE)
- Last week, the U.S. Department of Labor took a range of actions to aid American workers and employers as our nation combats the coronavirus pandemic.

U.S. Department Of Labor Proposes Rule on Employee Benefit Plan Proxy Voting And Exercises Of Other Shareholder Rights (HERE)
- The U.S. Department of Labor today made available a proposed rule that would address the application of the prudence and exclusive purpose duties under the Employee Retirement Income Security Act (ERISA) with respect to proxy voting and exercises of other shareholder rights.

U.S. Department of Commerce Continues to Invest Cares Act Funding to Boost Economic Development Programs Critical to Helping Communities Respond to Coronavirus (HERE)
- EDA CARES Act Recovery Assistance, which is being administered under the authority of the bureau’s flexible Economic Adjustment Assistance (EAA) program, provides a wide-range of financial assistance to eligible communities and regions as they respond to and recover from the impacts of the coronavirus pandemic. For complete information, please visit EDA CARES Act Recovery Assistance page.

VA Offers Electronic Virtual Assistant for Veterans to Connect Faster with Counselors (HERE)
- The U.S. Department of Veterans Affairs (VA) announced today a new artificial intelligence platform designed to enhance customer service and provide timely responses to Veterans. The electronic Virtual Assistant (e-VA) allows Veterans to receive a timely response to basic questions, automated alerts, follow-up messages, appointment reminders and the ability to schedule and reschedule appointments.

Defense Department Aids U.S. Delivery of Ventilators to Indonesia (HERE)
• Indonesia received a shipment of 500 ventilators from the U.S. Agency for International Development, Aug. 30, 2020. The Air Mobility Command transported them from Travis Air Force Base, California, to Jakarta, Indonesia.
