

WISPA POLICY PRIORITIES

BROADBAND
WITHOUT
BOUNDARIES

4 PILLARS

The innovation and agility of WISPA's small- and medium-sized ISPs have reduced the digital divide and connected millions of Americans to reliable broadband services they otherwise wouldn't have access to. Using the right tool for the job – such as fixed wireless access, fiber and satellite technologies – allows us to quickly and cost-effectively deliver affordable, future-proof connectivity to those in unserved, underserved, and marginalized areas of America. **To help effectively connect more Americans, WISPA's legislative and regulatory efforts are focused on four primary objectives:**

By embracing policies aligned with these four essential pillars – **Balance, Need, Accessibility, and Competition** – policymakers can harness the power of WISPA member companies to quickly and more cost-effectively connect more Americans to critical broadband service.
